Eriez® Expands Xtreme® Metal Detector Line to Include New Options

Erie, PA—[Eriez®](#) is now offering its standard [Xtreme® Metal Detector Conveyor Systems](#) with optional air-blast or pusher-arm rejects. The reject option is available with the company's popular 14-inch wide by 6, 8 or 10-inch high aperture sizes.

Metal Detection Product Manager Ray Spurgeon says, "These systems are now more versatile than ever with the availability of rejects as well as a great variety of other options, including lockboxes, reject confirmation, stainless steel motor/reducers, upgraded guarding and emergency stop systems."

According to Eriez, all standard [Xtreme Metal Detector Conveyor Systems](#) are highly sensitive and suitable for high-pressure wash-down. Additional features include plastic chain belting, left to right and right to left belt travel abilities, dual voltage, variable speeds and adjustable heights. Eriez also offers optional size guides and casters with these units.

Spurgeon explains that [Eriez Xtreme Metal Detectors](#) are designed with a focus on sensitivity, convenience and productivity. He says, "With their 7-inch touch screen interface, multiple pre-programmed languages, easy set-up and reporting, multiple USB and interface ports and remote access and 24/7 technical support capabilities, these metal detectors are unparalleled."

To learn more about the broad line of Eriez metal detectors suited for practically any application, visit <http://erieznews.com/nr491>.

Eriez is recognized as world authority in separation technologies. The company's magnetic lift and separation, metal detection, fluid recycling, flotation, materials feeding, screening, conveying and controlling equipment have application in the process, metalworking, packaging, plastics, rubber, recycling, food, mining, aggregate, textile and power industries. Eriez manufactures and markets these products through 12 international subsidiaries located on six continents. For more information, call (814) 835-6000.
